Additional information:

¹⁾ **Deposit protection scheme.**

The entity responsible for deposit protection is Bankowy Fundusz Gwarancyjny ("BFG").

²⁾ **General scope of coverage.**

If a deposit becomes unavailable as a result of the inability of the covered entity which the deposit is held with to pay its financial liabilities, BFG will pay such deposit to the depositor up to the coverage limit, which is the PLN equivalent of EUR 100,000 per depositor for all deposits held with the same covered entity. This means that in order to determine the amount of coverage which a depositor is entitled to under the deposit protection scheme, all of the depositor's deposits held with the same covered entity are aggregated. For example, if a depositor holds the PLN equivalent of EUR 90,000 in a savings account and the PLN equivalent of EUR 20,000 in a current account with the same entity covered by the deposit protection scheme, the depositor will thereunder be entitled to recover only the PLN equivalent of EUR 100,000.

For the purposes of the deposit protection scheme, the applicable EUR/PLN exchange rate is the mid rate announced by the National Bank of Poland on the date on which compensation eligibility criteria as defined in Article 2(10) of the Act of June 10th 2016 on the Banking Guarantee Fund, the Deposit Protection Scheme and Mandatory Restructuring (Dz.U. of 2020, item 842, as amended) are met with respect to an entity covered by the deposit protection scheme.

⁴⁾ **Coverage limit for joint accounts.**

The coverage limit equal to the PLN equivalent of EUR 100,000 applies separately to each depositor holding an account jointly with others. However, where two or more partners or members of a partnership, association or unincorporated organisational unit having legal capacity under statute are entitled to transact on an account operated for such entity, all deposits held in that account are protected only up to the PLN equivalent of EUR 100,000.
